APPROVAL \_\_\_\_\_ OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.5 cubic feet per second, but not to exceed 95 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before January 3, 1986

Proof of completion of work shall be filed before February 3, 1986

Application of water to beneficial use shall be made on or before January 3, 1989

Proof of the application of water to beneficial use shall be filed on or before February 3, 1989

(PERMIT TERMS CONTINUED)

This permit does not allow for any irrigation use except that up to 93.0 acre-feet annually may be diverted for landscaping use when decreed surface waters are not available for such purposes and subject to the conditions set forth in the letter of February 14, 1985 submitted by the permittee's agent contained herein. No diversion of underground water is allowed for landscaping purposes if surface waters become unavailable through change of place of use of said waters.

The total duty of water under Permits 47608 and 47609 shall not exceed 95 million gallons annually.
